

MULTICRAFT INDUSTRIAL MAINTENANCE TECHNICIAN, ASSOCIATE OF APPLIED SCIENCE

Curriculum Code #6194

Effective May 2026

The Multicraft Industrial Maintenance program is designed to provide students with the knowledge and skills necessary for competent performance in industrial systems maintenance from a Multicraft perspective. The program's broad focus ensures students are well-versed in mechanical, electrical, and automated systems. Graduates will be able to perform journeyman-level work in installing, repairing, maintaining, and testing a wide variety of industrial systems. Lorain County Community College has articulation agreements with colleges and universities including programs offered by LCCC's University Partnership.
